

## The Galloway Family

We are excited to announce our newest Veteran Partner Family: Mikey and Stephanie Galloway and their three beautiful children.

The Galloway's are in the beginning stages of their journey with SENH Habitat for Humanity. After officially partnering with us in the fall of 2022, the family expressed their gratitude for this opportunity. They shared that they never imagined owning a home and this program has restored their hope and faith for a bright and successful future.

Mikey served in the United States Marine Corps for 5 years as an Intel Analyst and is currently the sole provider for his family. His wife Stephanie is busy homeschooling their children and is the main care giver of their three younger children who are 7, 5, and 2 years old.

Plans for the Galloway Veteran project includes building an energy-efficient single-family home all on one level in Farmington. Design plans include building a four bedroom and two bathroom home.
